Pairing MXSP-BT03 with Bluetooth devices

Form a wireless connection between Bluetooth-enabled devices through a simple operation.

For example, when use mobile phone with Bluetooth speaker, it is necessary to operate the mobile phone Bluetooth to search Bluetooth devices, select and then connect wirelessly by PIN

The MXSP-BT03 speaker pairing steps are as follows:

1. Ensure the speaker is ON.
2. Hold the multifunction button for about 8 seconds until the LEDs are on and red and blue LEDs flash alternately.
3. Refer to the User manual of your phone to turn on your phone Bluetooth function and search for Bluetooth speaker. Typically, the steps involved include entering the settings, connection, or Bluetooth menu on the mobile phone, then selecting the found Bluetooth device option.
4. The phone will find the “MAXELL MXSP-BT03” Bluetooth speaker, and ask if you are ready for pairing. Press the OK or CONFIRM to pair the devices.
5. Enter password or PIN No.: “0000”, and press YES or CONFIRM.

(**Remarks:** After successful connection, the blue LED of your MXSP-BT03 will flash and later flash once every 5 seconds. If the pairing has failed, LEDs are still flashing alternately, the device needs re-pairing)

Voice Call

If Bluetooth voice calling is supported by your phone, turn the Voice recognition feature on, and your speaker as a speakerphone.

1. Press and release the multifunction button once. You will hear a tone to indicate the voice function is activated.
2. Say the name of person you wish to call clearly and slowly.

(Note: Speaker's voice call function is determined by your mobile phone. Your phone must support this function)

Battery charging and low-voltage alert

When the alert tone sounds every once 30 seconds and the red LED flashes, the battery of the Bluetooth speaker is running low. It will automatically shut down if not charging it after 5-10 minutes. Charge the speaker immediately with your smartphone charger adaptor through the USB to Micro-USB cable provided.

When the speaker is charging, the red LED will switch ON. The red LED will switch off when it is fully charged after 2-3 hours.

Remarks

1. Pairing mode will last for 5 minutes. Other mobile phones cannot connect to the Bluetooth speaker during this time.
2. Re-connecting automatically (includes two cases)
 - a. If the Bluetooth speaker is turned off, it will connect to the pre-set Bluetooth speaker automatically when it is switched on.
 - b. When the MXSP-BT03 disconnects to mobile phone because it exceeds the effective range (typically 10 meters), the Bluetooth speaker will re-connect to mobile phone once it is back to the effective range within 10 minutes. Longer than this, and it will need to be re-connected manually.

CHARGING INSTRUCTIONS

This unit operates on a built-in Li-ion battery that can be recharged either using the USB port on your computer or from a USB power adaptor (not included) with a rated output of DC5V, 500mA and up.

Note: The micro USB CHARGING JACK located on this unit is only designed for charging the built- in Li-ion battery.

CHARGING THE BATTERY FOR FIRST TIME

- 1.) Charge the built-in Li-ion battery a minimum of 2 hours prior to first use. Plug the unit into the USB port on your computer or into a USB power adaptor (not included) using the included USB cable.
- 2.) The LED indicator will turn red while charging and turn blue when the unit is fully charged. Unplug the USB cable from the power source once the battery is fully charged.

RECHARGING THE INTERNAL BATTERY

After prolonged use, the internal battery will become weak and the operation may become intermittent. When the internal battery charge is very low, the Indicator LED will flash red and a melody will play alerting you to recharge the internal battery as soon as possible.

Plug the speaker into a USB port on your computer or into a DC5V, 500mA and up USB power adaptor (not included) using the included USB cable. Disconnect the USB cable from the speaker as soon as it is fully charged.

Charging in Power ON mode

- The Indicator LED is RED while charging.
- The Indicator LED will change from RED to BLUE when the battery is fully charged.

- Note:**
1. Charging time will vary if you are listening to music while charging the internal battery. We recommend you switch off the speaker power during the charging process.
 2. To prolong the life of a rechargeable battery, it is recommended to completely discharge it before fully charging it again.
 3. Rechargeable batteries need to be cycled for maximum performance and longer battery life. If you don't use the player that often, be sure to recharge the battery at least once a month in order

to keep the internal battery working properly.

Charging in Unit Power OFF mode

- The Indicator LED is RED while charging.
- The Indicator LED will change from RED to BLUE when the battery is fully charged.

Battery Note and Care

- Do not burn or bury batteries.
- Do not puncture or crush.
- Do not disassemble.
- Li-ion batteries must be recycled. Do not dispose of in the trash.
- Use only chargers rated for Li-ion cells. Be sure the charger's voltage and current settings are correct for the battery pack being charged.
- Charge batteries on a fireproof surface and away from flammable items or liquids.
- Batteries should NEVER be left unattended while charging. Only adults should charge the batteries.
- Follow the manufacturer's instructions for charging the product and do not charge longer than recommended. Unplug the charger when the battery is charged or not in use.

NOTE: The speaker is not magnetically shielded and may cause color distortion on the screen of some TVs or video monitors. To avoid this, you may need to move the unit further away from the TV or monitor if an unnatural color shifts or image distortion occurs.

CARE AND MAINTENANCE

1. Avoid operating your unit under direct sunlight or in hot, humid or dusty places.
2. Keep your unit away from heating appliances and sources of electrical noise such as fluorescent lamps or motors.

CLEANING THE UNIT

- To prevent fire or shock hazard, disconnect your unit from the USB port of power source when cleaning.
- The finish on the unit may be cleaned with a dust cloth and cared for as other furniture. Use caution when cleaning and wiping the plastic parts.
- If the cabinet becomes dusty wipe it with a soft dry dust cloth. Do not use any wax or polish sprays on the cabinet.
- If the front panel becomes dirty or smudged with fingerprints it may be cleaned with a soft cloth slightly dampened with a mild soap and water solution. Never use abrasive cloths or polishes as these will damage the finish of your unit.

CAUTION: Never allow any water or other liquids to get inside the unit while cleaning.

TROUBLESHOOTING GUIDE

Symptom	Possible Problem	Solution
No Charging	The USB power adaptor (not included) is not plugged into a wall outlet or the USB cable (included) is not plugged into the micro USB jack on the bottom of the MXSP-BT03.	Plug the USB power adaptor (not included) into a wall outlet and plug the USB cable (included) into the micro USB jack on the the MXSP-BT03.
	Wall outlet is not functioning.	Plug another device into the same outlet to confirm the outlet is working.
	Computer USB port is not functioning.	Make sure your computer power is turned on and try another USB port.
No Sound	The MXSP-BT03 battery is dead.	Recharge the MXSP-BT03 battery.
	The MXSP-BT03 is not linked with the mobile phone.	Go through "Speaker Operations" process to link the speaker.
	The MXSP-BT03 placement is out of range.	Relocate the MXSP-BT03 within Bluetooth operating range (30 feet).
	Volume set too low.	Increase the volume of your device.
Sound is distorted.	Volume level is set too high.	Decrease the volume of your device.
	Sound source is distorted.	If the source sound file is of poor quality, distortion and noise are easily noticed with high-power speakers. Try a different audio source such as a music CD.
Unit gets warm after extended play at high volume.	This is normal.	Turn the unit off for a period of time or lower the volume.
